EOS Roof Light Warranty

- 1 EOS offer the following Warranty on our product, as follows;
- 2 This warranty covers the EOS roof light, comprising a hermetically sealed double or triple glazed panel, aluminium frame and timber up stand (where applicable). This warranty also covers all gaskets, fixings and associated items which form part of the roof Light.
- 3 EOS will be liable for a period of ten years (two years for all actuators & peripherals), from the date of delivery of materials onto site, providing the said defect can be proven to be a manufacturing fault.
- 4 The liability of EOS is conditional that installation and handling has been carried out in accordance with EOS installation recommendations, whether this is orally or in writing.

Should EOS hereafter be responsible for defect, EOS can choose between;
 - A. Refund of the purchase price.
 - B. A prompt replacement delivery
 - C. Repair on site.
 - D. Other appropriate action where necessary.
- 5 In the instance where a replacement unit is supplied, EOS will arrange for the unit to be sent to the same delivery address as the original order at no cost to the client. EOS will not undertake any onsite lifting or installation of the replacement unit.
- 6 In no circumstances shall EOS's liability to the buyer for any breach of this clause exceed the price paid of the goods with respect to which the claim is made. EOS shall never be liable for any consequential damage such as (but not limited to) working defects and loss of profit.
- 7 The glazing must at all times be maintained in accordance with the maintenance manual as supplied, following completion of the installation.
