

ROOFLIGHTS

COS EOS97 Fixed Rooflight Install Guide

Step One

Measure the opening's length and width, ensuring they match the technical drawings' sizes.

Step Two

Unpack the rooflight and separate the lid from the upstand.

Step Three

Place your upstand over the opening an measure diagonally to ensure the upstand is square.

Fix the upstand to the roof deck using either external fixing brackets or internal straps.

Gasket Top Plate Plasterboard 97mm Upstand Roof Membrane Arris Rail

Step Five

Weather the upstand with your chosen roof covering, ensuring the membrane finishes flush against the protruding lip of the upstand.

Step Six

Gently place the lid onto the upstand, keeping fingers clear of the gap between the upstand and skylight frame. Ensure the rooflight sits securely on the gaskets and is centralised.

Step Seven

Using the screws provided, fix the rooflight to the upstand. Ensure the two security screws are positioned on opposite sides of the rooflight.

Step Eight

Internally, the plasterboard should fit under the internal stop bead, this gives you a natural stop for your plaster.
